PROFESSIONAL SUMMARY

As a dedicated Production professional with nearly a year of hands-on experience, I have successfully managed end-to-end production processes while demonstrating strong leadership, team motivation, and goal-oriented execution. My keen attention to detail, effective time management, and unwavering commitment to quality make me a valuable asset to any production team. I am confident that my work ethic and passion for excellence will enable me to thrive in any production role.

PROFESSIONAL EXPERIENCE

1. Production Executive At Meteoric Biopharmaceuticals Private Limited / India, Ahmedabad (Jan-2024-Now)

As a Production Executive at Meteoric Biopharmaceuticals Private Limited, I am responsible for overseeing the production process of various pharmaceutical products. This included ensuring quality control, managing inventory, and coordinating with different departments to meet production targets.

- Managing production process for blending of different powders
- Maintaining accurate documentation for production processes (i.e. BMR & BRR ,Cleaning Records ,Equipment Usage Logbooks)
- Machine verification and cleaning at different manufacturing stage
- Verification and calibration of weighing balance
- Issuance and retrieval of production documents i.e., Annexure ,BMR ,logbook , Labels , etc.
- Handling QMS activities i.e., Change control ,CAPA, Deviation etc.
- Maintaining area monitoring and differential pressure records
- Export packing and documentation

2. Quality Control Officer Meteoric Biopharmaceuticals Private Limited / India, Ahmedabad (Feb-2023 to Jan-2024)

As a Quality Control Officer at Meteoric Biopharmaceuticals Private Limited, I was responsible for inward material sampling ,COA and MSDS of materials and handing over the finished goods samples to QC for testing to ensuring the quality and safety of all products manufactured by the company.

- Sampling of all inward raw materials through RLAF
- Checking MSDS (Material safety data sheet) of materials
- Sampling and handing over the finished goods samples to QC for testing
- Daily monitoring of area monitoring, differential pressure and RLAF
- COA comparison
- Coordination with different departments
- Maintained accurate records and documentation of all quality control processes

3. NPD(New Product Development) Trainee Suntara Cosmetics Private Limited / India, Ahemdabad (March-2022 to Jan-2023)

As an NPD Trainee at Suntara Cosmetics Private Limited, I had the opportunity to work on various projects related to new product development. During my time at the company from 2023-03 to 2024-01, I gained valuable experience in the beauty industry and honed my skills in product innovation and market research for perfumes.

- Collaborated with cross-functional teams to develop new products
- Conducted market research and analyzed consumer trends
- Assisted in creating product concepts and formulations
- Co-ordination with various departments for changes in BOM .
